Re: Class Certification of F1 Placement Swaps Pursuant to Section 5c(c) of the Commodity Exchange Act and CFTC Regulation 40.2(d)

Dear Sir or Madam:

Pursuant to Section 5c(c) of the Commodity Exchange Act (the "Act"), 7 U.S.C. § 7a-2(c), and Commission Regulation 40.2(d), 17 C.F.R. § 40.2(d), Ludlow Exchange, LLC ("Ludlow" or the "Exchange"), a registered designated contract market doing business as Novig, hereby certifies a class of F1 Placement swaps (the "Class") for listing on the Exchange.

A description of the Class and the certifications required by Regulation 40.2(d) follow:

The Previously Certified Contract. On August 27, 2026, the Exchange submitted and certified the F1 Placement Contract pursuant to Commission Regulation 40.2(a), CFTC Submission No. 2608-2715-2725-13 (the "Previously Certified Contract"). The submission included the complete terms and conditions governing the Previously Certified Contract, including its pricing sources, formulas, procedures, and methodologies for determining reference values and payment obligations.

The Class. Each particular swap within the Class is an event contract based on the official finishing position of a specified driver in a specified F1 race. Each swap will be governed by the terms and conditions of the Previously Certified Contract. The values assigned to <game>, <entity>, <position>, and <date> may vary among swaps within the Class and will be specified by the Exchange before the applicable swap is listed. No other term affecting the pricing source, calculation of the reference value, payment obligations, settlement procedure, or settlement currency may vary among swaps within the Class.

Identical Pricing Sources and Methodology. Each swap within the Class will use the FIA (Fédération Internationale de l'Automobile), the Governing Body of <game>, as the Source Agency and the identical source hierarchy specified in the Previously Certified Contract, applied in order: (i) the official results publication of the FIA; (ii) any other official channel maintained or expressly authorized by the FIA, such as Formula1.com, ESPN, the Associated Press, or the official broadcaster of <game>; (iii) the official records of any renamed, reorganized, or successor Governing Body of <game>; and (iv) a result reported concordantly by at least two independent sources with a credible reputation regarding events relative to the FIA. The Underlying for each swap is the official finishing position of <entity> in <game>, as recorded in the official classification issued by the Source Agency and determined under the Expiration Value Determination Rule and the Classification Conventions. Under the Payout Criterion, if <entity>

commences <game> and the official finishing position of <entity> satisfies <position>, the Member holding the YES side receives the $1.00 Settlement Value; if <entity> commences but does not satisfy <position>—including where <entity> retires, crashes, withdraws, is disqualified, or is otherwise not classified as a finisher after Commencement—the Member holding the NO side receives the $1.00 Settlement Value; and if <entity> does not commence <game>, the swap settles to Void under the Non-Participation Rule. Under the Dead-Heat Rule and the Tie Rule, a tie does not by itself cause a swap to settle to Void: each <entity> tied at the position relevant to <position> is treated as satisfying the Payout Criterion and resolves YES in full at the Settlement Value without dead-heat reduction, except that where the Contract Title or Contract Description expressly provides for dead-heat treatment, each tied participant resolves YES at $1.00 divided by the number of tied winners, rounded down to the nearest Minimum Tick, and NO at $1.00 minus that YES payout. Where a swap settles to Void—including under the Non-Participation Rule, the Scheduling and Postponement Rule, the Format Change Rule, the No Result and Data Availability Rule, the Extraordinary Circumstances Rule, or the General Market Suspension Rule—or where any other provision otherwise provides for settlement at fair value, the swap will be resolved under the identical Fair Value Settlement Rule, which distinguishes an Event Void from a Condition Void and applies its Reference Time, Calculation Window, composite Fair Value Price sources, normalization methodology, Data Integrity exclusions, Fallbacks, and payment allocation. Each swap will be denominated and settled in United States dollars.

Certifications. Pursuant to Section 5c of the Act and Commission Regulations 40.2(a)(3)(iv), 40.2(a)(3)(vi), and 40.2(d), the Exchange hereby certifies that:

(i) each particular swap within the Class is based upon an excluded commodity specified in Commission Regulation 40.2(d)(1), specifically an occurrence, extent of an occurrence, or contingency within Section 1a(19)(iv) of the Act;

(ii) each particular swap within the Class is based upon an excluded commodity with an identical pricing source, formula, procedure, and methodology for calculating reference prices and payment obligations;

(iii) the pricing source, formula, procedure, and methodology for calculating reference prices and payment obligations in each particular swap within the Class are identical to those used in the Previously Certified Contract;

(iv) each particular swap within the Class is based upon an excluded commodity involving an identical currency, the United States dollar;

(v) each particular swap within the Class complies with the Act and the Commission's regulations thereunder; and

(vi) concurrently with the filing of this submission, the Exchange has posted on its public website at *https://www.ludlowexchange.com/filings* a notice of pending class certification and a copy of this submission.

Submission Timing. The Exchange has filed this submission electronically through the CFTC Portal and will not list or facilitate trading in any swap within the Class unless the Commission has received this

submission by the open of business on the business day preceding the listing, as required by Commission Regulation 40.2(a)(2).

Sincerely,

Calvin Smith
