Re: Class Certification of Ligue 1 Prop Swaps Pursuant to Section 5c(c) of the Commodity Exchange Act and CFTC Regulation 40.2(d)

Dear Sir or Madam:

Pursuant to Section 5c(c) of the Commodity Exchange Act (the "Act"), 7 U.S.C. § 7a-2(c), and Commission Regulation 40.2(d), 17 C.F.R. § 40.2(d), Ludlow Exchange, LLC ("Ludlow" or the "Exchange"), a registered designated contract market doing business as Novig, hereby certifies a class of Ligue 1 Prop swaps (the "Class") for listing on the Exchange.

A description of the Class and the certifications required by Regulation 40.2(d) follow:

The Previously Certified Contract. On August 17, 2026, the Exchange submitted and certified the Ligue 1 Prop Contract pursuant to Commission Regulation 40.2(a), CFTC Submission No. 2608-1714-5129-94 (the "Previously Certified Contract"). The submission included the complete terms and conditions governing the Previously Certified Contract, including its pricing sources, formulas, procedures, and methodologies for determining reference values and payment obligations.

The Class. Each particular swap within the Class is an event contract based on a soccer statistic recorded by a specified player or team in a specified Ligue 1 match, measured over a defined portion of that match. Each swap will be governed by the terms and conditions of the Previously Certified Contract. The values assigned to <game>, <entity>, <stat>, <time period>, <comparison operator>, <count>, and <date> may vary among swaps within the Class and will be specified by the Exchange before the applicable swap is listed. No other term affecting the pricing source, calculation of the reference value, payment obligations, settlement procedure, or settlement currency may vary among swaps within the Class.

Identical Pricing Sources and Methodology. Each swap within the Class will use the Ligue 1, the Governing Body of <game>, as the Source Agency and the identical source hierarchy specified in the Previously Certified Contract, applied in order: (i) the official results publication of the Ligue 1; (ii) any other official channel maintained or expressly authorized by the Ligue 1, such as ESPN, the Associated Press, Fox Sports, or the official broadcaster of <game>; (iii) the official records of any renamed, reorganized, or successor governing body of <game>; and (iv) a result reported concordantly by at least two independent sources with a credible reputation regarding events relative to the Ligue 1. The Underlying for each swap is the official attribution of <stat> recorded by <entity> in <time period> of <game>, as recorded by the Source Agency, where <entity> is a soccer team or player entered in <game> and <stat> is an official soccer statistic such as goals, assists, shots, tackles, fouls, penalties, or saves, or

an ordered statistic such as first goal scorer. For each swap, the reference value is determined under the Expiration Value Determination Rule from the statistics recorded by the Source Agency over the applicable <time period>, subject to the Statistical Counting Conventions governing segment confinement, own-goal attribution, and penalty kicks. Under the Payout Criterion, if the number of <stat> recorded by <entity> in <time period> of <game> is <comparison operator> <count>, the Member holding the YES side receives the $1.00 Settlement Value; if it is not, the Member holding the NO side receives the $1.00 Settlement Value. Where <comparison operator> is "above" or "below" and the Expiration Value is exactly equal to <count>, the swap settles to Void under the Exact-count convention and is resolved under the Fair Value Settlement Rule rather than to the NO side, unless otherwise stated; this convention does not apply where <comparison operator> is "exactly," "at least," or "between," or where <count> is set such that the Expiration Value cannot equal it. Where <stat> is expressed as a ranking or order and two or more entities cannot be separated at the relevant position, the Ordered-Statistic and Tie Rule governs: each tied <entity> is deemed to occupy that position and each swap referencing a tied <entity> settles at the full Settlement Value without proportional reduction, except that where the Contract Title expressly provides for proportional (dead-heat) settlement, each such swap settles at a Yes value equal to the Settlement Value divided by the number of tied entities, rounded down to the nearest Minimum Tick, and a No value equal to the Settlement Value minus that Yes value. Where a swap settles to Void—including under the Scheduling and Postponement Rule, the Format Change Rule, the Season and Tournament Truncation Rule, the Venue Rule, the Non-Participation Rule, the No Result and Data Availability Rule, the Extraordinary Circumstances Rule, or the General Market Suspension Rule—or where any other provision otherwise provides for settlement at fair value, the swap will be resolved under the identical Fair Value Settlement Rule, which distinguishes an Event Void from a Condition Void and applies its Reference Time, Calculation Window, composite Fair Value Price sources, normalization methodology, Data Integrity exclusions, Fallbacks, and payment allocation. The determination of the Expiration Value is final under the Determination Finality Rule. Each swap will be denominated and settled in United States dollars.

Certifications. Pursuant to Section 5c of the Act and Commission Regulations 40.2(a)(3)(iv), 40.2(a)(3)(vi), and 40.2(d), the Exchange hereby certifies that:

(i) each particular swap within the Class is based upon an excluded commodity specified in Commission Regulation 40.2(d)(1), specifically an occurrence, extent of an occurrence, or contingency within Section 1a(19)(iv) of the Act;

(ii) each particular swap within the Class is based upon an excluded commodity with an identical pricing source, formula, procedure, and methodology for calculating reference prices and payment obligations;

(iii) the pricing source, formula, procedure, and methodology for calculating reference prices and payment obligations in each particular swap within the Class are identical to those used in the Previously Certified Contract;

(iv) each particular swap within the Class is based upon an excluded commodity involving an identical currency, the United States dollar;

(v) each particular swap within the Class complies with the Act and the Commission's regulations thereunder; and

(vi) concurrently with the filing of this submission, the Exchange has posted on its public website at *https://www.ludlowexchange.com/filings* a notice of pending class certification and a copy of this submission.

Submission Timing. The Exchange has filed this submission electronically through the CFTC Portal and will not list or facilitate trading in any swap within the Class unless the Commission has received this submission by the open of business on the business day preceding the listing, as required by Commission Regulation 40.2(a)(2).

Sincerely,

Calvin Smith
