Re: Class Certification of NBA Prop Swaps Pursuant to Section 5c(c) of the Commodity Exchange Act and CFTC Regulation 40.2(d)

Dear Sir or Madam:

Pursuant to Section 5c(c) of the Commodity Exchange Act (the “Act”), 7 U.S.C. § 7a-2(c), and Commission Regulation 40.2(d), 17 C.F.R. § 40.2(d), Ludlow Exchange, LLC (“Ludlow” or the “Exchange”), a registered designated contract market doing business as Novig, hereby certifies a class of NBA Prop swaps (the “Class”) for listing on the Exchange.

A description of the Class and the certifications required by Regulation 40.2(d) follow:

The Previously Certified Contract. On September 29, 2026, the Exchange submitted and certified the NBA Prop Contract pursuant to Commission Regulation 40.2(a), CFTC Submission No. 2609-2914-2250-94 (the “Previously Certified Contract”). The submission included the complete terms and conditions governing the Previously Certified Contract, including its pricing sources, formulas, procedures, and methodologies for determining reference values and payment obligations.

The Class. Each particular swap within the Class is an event contract based on the official attribution of a specified statistic recorded by a specified team or player in a specified NBA basketball game or a designated segment of that game, measured against a stated line. Each swap will be governed by the terms and conditions of the Previously Certified Contract. The values assigned to <game>, <entity>, <stat>, <time period>, <comparison operator>, <count>, and <date> may vary among swaps within the Class and will be specified by the Exchange before the applicable swap is listed. No other term affecting the pricing source, calculation of the reference value, payment obligations, settlement procedure, or settlement currency may vary among swaps within the Class.

Identical Pricing Sources and Methodology. Each swap within the Class will use the NBA, the Governing Body of <game>, as the Source Agency and the identical source hierarchy specified in the Previously Certified Contract, applied in order: (i) the official results publication of the NBA; (ii) any other official channel maintained or expressly authorized by the NBA, such as ESPN, the Associated Press, Fox Sports, or the official broadcaster of <game>; (iii) the official records of any renamed, reorganized, or successor Governing Body of <game>; and (iv) a result reported concordantly by at least two independent sources with a credible reputation regarding events relative to the NBA. The reference value for each swap is the official attribution of <stat> recorded by <entity> in <time period> of <game>, as recorded by the Source Agency. <entity> is either a basketball team or a basketball player officially

entered in <game>, and <stat> is one of the official basketball statistics tracked by the Source Agency. Settlement follows the Payout Criterion: if the number of <stat> recorded by <entity> in <time period> of <game> is <comparison operator> <count>, the Member holding the YES side receives the Settlement Value, and if it is not, the Member holding the NO side receives the Settlement Value. “Above” means strictly greater than, “below” strictly less than, “exactly” equal to, “at least” greater than or equal to, and “between” within an inclusive range. On ties, where the Expiration Value is exactly equal to <count> and <comparison operator> is “above” or “below,” the swap settles to Void and is resolved under the Fair Value Settlement Rule rather than to the NO side. Under the Ordered-Statistic and Dead-Heat Rule, official play-by-play timing governs an ordered <stat> and the Exchange does not apply dead-heat treatment unless the Contract Title expressly provides for it: for any Top X, finishing-position, or ranking market, all such markets are graded individually regardless of ties at the relevant position, and a participant tied at that position is treated as satisfying the Payout Criterion and resolves Yes in full at the full Settlement Value without dead-heat reduction; where the Contract Title expressly provides for dead-heat treatment, each tied participant instead resolves Yes at a Payout of \$1 divided by the number of tied winners, rounded down to the nearest tick, and No at \$1 minus that Yes Payout. Under the Tie / No-Result Rule, a swap settles to Void where the Source Agency does not record a result sufficient to determine the Payout Criterion prior to Expiration, but a tie does not by itself constitute a no-result where the tie still determines the Payout Criterion. Each swap settles on an unequivocally determined Expiration Value under the Expiration Value Determination Rule, and a swap whose Payout Criterion is unequivocally determined before a suspension, postponement, shortening, or other interruption will be settled on that determined outcome under the Determined-Outcome Carve-Out. Under the Non-Participation Rule, a player <entity> is considered to have participated where that player appears in the official box score of <game>, and a failure to participate settles the swap to Void; that Rule does not apply where <entity> takes the form “Any” or “None.” Under the In-Game Removal Rule, a player who appears in the official box score but is removed before the conclusion of <game> does not cause a Void, and the swap settles on the official statistics recorded for that player through the point of removal, except where the Determined-Outcome Carve-Out applies. Where a swap settles to Void—including under the Non-Participation Rule, the Tie / No-Result Rule, the Season Truncation Rule, the Scheduling and Postponement Rule, the Series Conclusion Rule, the Format Change Rule, the Forfeit Rule, the Venue Rule, the Extraordinary Circumstances Rule, or the General Market Suspension Rule—or where any other provision otherwise provides for settlement at fair value, the swap will be resolved under the identical Fair Value Settlement Rule, including its Reference Time, Calculation Window, composite Fair Value Price sources, normalization methodology, Data Integrity exclusions, Fallbacks, and payment allocation. The determination of the Expiration Value is final under the Determination Finality Rule. Each swap will be denominated and settled in United States dollars.

Certifications. Pursuant to Section 5c of the Act and Commission Regulations 40.2(a)(3)(iv), 40.2(a)(3)(vi), and 40.2(d), the Exchange hereby certifies that:

- (i) each particular swap within the Class is based upon an excluded commodity specified in Commission Regulation 40.2(d)(1), specifically an occurrence, extent of an occurrence, or contingency within Section 1a(19)(iv) of the Act;

- (ii) each particular swap within the Class is based upon an excluded commodity with an identical pricing source, formula, procedure, and methodology for calculating reference prices and payment obligations;
- (iii) the pricing source, formula, procedure, and methodology for calculating reference prices and payment obligations in each particular swap within the Class are identical to those used in the Previously Certified Contract;
- (iv) each particular swap within the Class is based upon an excluded commodity involving an identical currency, the United States dollar;
- (v) each particular swap within the Class complies with the Act and the Commission's regulations thereunder; and
- (vi) concurrently with the filing of this submission, the Exchange has posted on its public website at <https://www.ludlowexchange.com/filings> a notice of pending class certification and a copy of this submission.

Submission Timing. The Exchange has filed this submission electronically through the CFTC Portal and will not list or facilitate trading in any swap within the Class unless the Commission has received this submission by the open of business on the business day preceding the listing, as required by Commission Regulation 40.2(a)(2).

Sincerely,

Calvin Smith
