Re: Self-Certification of the NFL Spread Contract Pursuant to Section 5c(c) of the Commodity Exchange Act and CFTC Regulation 40.2(a)

Dear Sir or Madam:

Pursuant to Section 5c(c) of the Commodity Exchange Act (the "Act"), 7 U.S.C. § 7a-2(c), and Commission Regulation 40.2(a), 17 C.F.R. § 40.2(a), Ludlow Exchange, LLC ("Ludlow" or the "Exchange"), a registered designated contract market doing business as Novig, hereby notifies the Commission of its election to self-certify the NFL Spread Contract (the "Contract") for listing on the Exchange.

A concise description and analysis of the contract follows:

The Contract. This contract is an event contract on the point spread of a specific NFL game identified by the Exchange. When entering the contract, a participant predicts whether a chosen team's margin of victory over its opponent, measured over a defined portion of the game such as the full game, a half, or a single quarter, will finish above or below the spread line set for the listing. If the official margin satisfies that condition, the contract pays its fixed settlement value of one dollar; if it does not, the contract settles at zero. Each listing corresponds to a single scheduled game and spread line, and contracts may settle to Void under the circumstances described in the rules.

Contract Mechanics. The Contract operates with a $1.00 Settlement Value, a $0.001 Minimum Tick, and a $50,000-per-strike-per-Member Position Accountability Level. Contract iterations will be issued on a recurring basis, with each instance corresponding to the hedging and informational trading needs of the Exchange's Members.

Core Principles Compliance. The Contract is not readily susceptible to manipulation: the Underlying is determined by objective and publicly verifiable criteria, and the underlying events are characterized by broad observability. A detailed analysis of the contract's compliance with the Core Principles is provided in Confidential Appendix B.

Certifications. Pursuant to Section 5c of the Commodity Exchange Act and Commission Regulation 40.2(a), the Exchange hereby certifies that:

(i) the Contract complies with the Act and the Commission's regulations thereunder; and

(ii) concurrently with the filing of this submission, the Exchange has posted on its public website at *https://www.ludlowexchange.com/filings* a notice of pending product certification and a copy of this submission (excluding any materials for which confidential treatment has been requested).

Confidential Treatment. Confidential treatment is requested for Confidential Appendix B pursuant to 17 C.F.R. §§ 40.8 and 145.9 and FOIA Exemption 4, 5 U.S.C. § 552(b)(4), as set forth more fully in the accompanying FOIA Confidential Treatment Request.

Enclosures. Enclosed with this letter are: (i) Public Appendix A: Terms and Conditions of the Contract; (ii) Confidential Appendix B: Analysis of Compliance with Core Principles; and (iii) FOIA Confidential Treatment Request.

Sincerely,

Calvin Smith
Head of Markets
Ludlow Exchange, LLC

PUBLIC APPENDIX A: TERMS AND CONDITIONS OF THE CONTRACT

NFL Spread

PRODUCT NAME	NFL Spread
RULEBOOK CODE	NFL-001
CONTRACT TYPE	Event Contract
ISSUANCE	Recurring (per scheduled event)
UNDERLYING CATEGORY	Sports: Football

CONTRACT SPECIFICATIONS

For the Contract certified by this submission, the variables used in these terms and conditions take the following values:

Variable	Value
<game>	New England Patriots vs. Seattle Seahawks
<team>	Seattle Seahawks
<opponent>	New England Patriots
<date>	September 9, 2026
<time period>	Full Game
<comparison operator>	Above
<count>	3.5
<scheduling week>	Week 1

GENERAL TERMS

Scope: These rules shall apply to this Contract.

Type: The type of Contract is an Event Contract.

Issuance: These Rules apply solely to the Contract identified in the Contract-Specific Terms.

Underlying: The Underlying for this Contract is **<team>**'s margin of victory in **<time period>** of **<game>**, calculated as **<team>**'s points minus **<opponent>**'s points recorded within **<time period>**, with Overtime included or excluded as provided in the definition of **<time period>**. A win for **<team>** is a positive number, a loss is a negative number, and a tie is zero. Revisions to the Underlying made after the Expiration Time will not be accounted for in determining the Expiration Value.

Source Agency. The Source Agency for this Contract is the National Football League ("NFL"), including any successor entity resulting from an official name change or reorganization of NFL.[1]

The Expiration Value shall be determined exclusively from the following hierarchy, applied in order (i) the official box score as published by NFL; (ii) ESPN; (iii) the Associated Press; (iv) Fox Sports. No other source may be used to determine the Expiration Value. Once the Expiration Value has been determined, subsequent revisions to official statistics or scoring decisions shall not reopen or alter the Expiration Value.

Void: The conditions under which a Contract on **<game>** may settle to Void are specified throughout this Contract. All Voids will settle on the basis of the Fair Value Settlement Rule.

Payout Criterion: The Contract will settle as follows. If **<team>**'s margin of victory in **<time period>** of **<game>** is **<comparison operator> <count>**, the Member holding the YES side of the Contract will receive the Settlement Value; if it is not, the Member holding the NO side of the Contract will receive the Settlement Value. If the Expiration Value cannot be determined, or as otherwise specified in this Contract, the Contract settles to Void.

FOOTBALL-SPECIFIC TERMS AND RULES

<game>: Refers to a specific Football game specified by the Exchange, identified by the two participating teams, the scheduled date, and where applicable the round or series designation (e.g., "NFL Divisional Round").

<team> and **<opponent>: <team>** refers to the Football franchise or program designated by the Exchange as the reference side for the point differential; **<opponent>** refers to the side playing against **<team>** in **<game>**. Both are identified by the Exchange; including but not limited to official team names, abbreviations, colors, cities or institutions of origin, nicknames, or any other identifying characteristics. If a team undergoes a name change, relocation, rebrand, or similar change where there is operational continuity, the Contract will continue to reference that team under its updated designation, and open Contracts will remain valid and unaffected. The differential is always computed relative to **<team>** (the reference side).

[1] This entity is not affiliated or associated with Ludlow Exchange, LLC. Neither this entity nor any of its affiliates sponsors, endorses, sells, promotes, approves, or is otherwise involved with this Contract or any other product offered by Ludlow Exchange. Any reference to this entity is solely for purposes of identifying the underlying event and the applicable settlement source.

<date>: Refers to the date of **<game>** in Eastern Time, as designated by the Exchange at the time of listing. In the event of a rescheduled game, the Exchange will update **<date>** to reflect the newly scheduled date of **<game>** per the Scheduling and Postponement Rule. If the Exchange cannot unambiguously identify a makeup game as the rescheduled **<game>**, the Contract will settle to Void.

<scheduling week>: For Pro Football, the period running Thursday through the following Wednesday (local stadium time) within which **<game>** is scheduled. Where **<game>** belongs to a competition that does not operate on a weekly schedule (e.g., certain bowl or postseason games), the Exchange will designate the applicable **<scheduling week>**, or designate that none applies, at the time of listing. The Exchange's designation is final.

Commencement: Commencement refers to the opening kickoff of **<game>**.

Overtime: Overtime refers to any overtime period(s) of **<game>**.

<time period> refers to the portion of the contest over which the Payout Criterion is measured and is limited to one, and only one, of the following:

- **Quarter:** A specific numbered quarter (Q1, Q2, Q3, or Q4) of regulation play. **Overtime** is excluded from quarter markets.
- **Half:** The first half (Q1–Q2) or second half (Q3–Q4), inclusive of **Overtime** for second-half markets only, unless otherwise stated.
- **Regulation:** Regulation time only, excluding **Overtime**.
- **Full Game:** Inclusive of **Overtime**

No other values are permitted

<count>: The spread line specified by the Exchange, expressed as a half-integer number of points (for example, 3.5 or 7.5), against which **<team>**'s margin of victory is measured. Because **<count>** is always a half-integer, the margin can never equal it, and every Contract resolves YES or NO.

Example. Suppose **<team>** is Kansas City, **<opponent>** is Las Vegas, **<count>** is 3.5, and **<comparison operator>** is "above." The Contract's Underlying is Kansas City's margin of victory. The Payout Criterion is satisfied — and the YES side receives the Settlement Value — if Kansas City wins by 4 points or more (a margin above 3.5). If Kansas City wins by 3 or fewer, ties, or loses, the margin is below 3.5, the Payout Criterion is not satisfied, and the NO side receives the Settlement Value.

<comparison operator> (above / below): "Above" means strictly greater than (>); "below" means strictly less than (<). Because **<count>** is always set to a half-integer, the margin can never equal **<count>**, and every Contract resolves YES or NO.

EVENT RESULT AND SETTLEMENT

Expiration Value Determination Rule: The Contract will settle according to an unequivocally determined Expiration Value, regardless of whether the Source Agency designates **<game>** as official, complete, or as having reached an official final result. The Expiration Value or the Payout Criterion can be unequivocally determined where either:

> the applicable **<time period>** is played to completion, as recorded by the Source Agency, in which case the Contract settles on the statistics recorded through the end of that **<time period>**; for this purpose, a full-game or regulation **<time period>** is played to completion only if **<game>** is played to its conclusion (inclusive of **Overtime** for full-game Contracts); or
> the applicable **<time period>** is not played to completion, but the Payout Criterion has been satisfied, or can no longer be satisfied, on the basis of the statistics already recorded, such that no further play within **<time period>** could alter the outcome, in which case the Contract settles on that determined outcome.

If **<game>** is called, abandoned, or otherwise ended before the applicable **<time period>** is played to completion and the Payout Criterion cannot be unequivocally determined, the Contract settles to Void.

Scheduling and Postponement Rule: If **<game>** does not Commence within **<scheduling week>**, the Contract will settle to Void, unless:

- the Exchange has formally rescheduled **<game>** and updated **<date>.**
- **<game>** begins within 24 hours of its original start time.

If **<game>** Commences but is then suspended or delayed before the Expiration Value can be determined, the Contract settles to Void unless **<game>** resumes within 48 hours of the time of suspension, except that any Contract that has already met the conditions for valid settlement under these Rules will settle on the official result recorded by the Source Agency.

If **<game>** is a playoff or postseason game as designated by the Source Agency, then regardless of whether the game did or did not Commence, the Contract will settle to Void, unless:

- the Exchange has updated **<date>** to a new scheduled calendar day; or
- **<game>** begins within 45 days of the latest scheduled start time, or, where **<game>** Commenced and was suspended, resumes within 45 days of the suspension.

For the avoidance of doubt, any Contract that has already met the conditions for valid settlement under these Rules will settle on the official result recorded by the Source Agency, notwithstanding this paragraph.

Format Change Rule: If there is a change to the format of **<game>** that materially affects the Underlying (e.g., a change from four quarters to two halves, or a reduction in game duration that alters the scoring baseline), the affected Contracts settle to Void.

Tie Rule: Where **<game>** (or the relevant **<time period>**) ends with equal points scored by both sides, the differential is recorded as zero and the Contract settles on that value.

Forfeit Rule: A forfeited **<game>** is treated as **<game>** being called at the time of forfeiture. The Contract settles to Void unless the Expiration Value can be unequivocally determined under the Expiration Value Determination Rule on the basis of the differential recorded through the time of forfeiture, in which case the Contract settles on that value.

No Result and Data Availability Rule: If the Source Agency has not recorded a result sufficient to determine the Expiration Value upon the conclusion of **<game>** , the Exchange will wait up to 48 hours from the conclusion of **<game>** for the Source Agency to record such a result. If the Source Agency has not recorded a result sufficient to determine the Expiration Value by the end of that 48-hour period, the Contract settles to Void.

CONTINGENCIES

Extraordinary Circumstances Rule: In the event of an extraordinary circumstance that renders a team or player unable to compete in **<game>**, or that otherwise materially affects the Underlying or the integrity of the settlement process, including but not limited to the death, serious injury, or incapacitation of one or more players, coaches, or staff members, the Exchange may determine, based upon the information reasonably available at the time, that settling the Contract to Void is necessary to prevent manipulation, price distortion, or a disruption of the settlement process. Absent such a determination, Contracts settle in accordance with the other provisions of this Contract, and if **<game>** is completed and an official result is recorded by the Source Agency, Contracts settle on that result notwithstanding the circumstance. The Exchange will make any determination under this Rule as promptly as reasonably practicable, will publish notice of the determination and a summary of its basis on its website, and will maintain a contemporaneous record of the information relied upon. All determinations under this Rule are final.

General Market Suspension Rule: The Exchange may suspend trading in any Contract at any time pending clarification of an unusual or uncertain event that may affect the outcome or validity of <game>, where the Exchange determines that continued trading may result in manipulation, price distortion, or a disruption of the settlement process. For illustration purposes, the Exchange may suspend trading upon a credible but unconfirmed report that **<game>** has been postponed, that a result is under official review, or that a participant is unable to compete, pending confirmation of whether and how <game> will proceed. The Exchange will resolve the suspension, by resuming trading or issuing a determination, within 24 hours of the suspension or, where it cannot do so, will extend the suspension for a stated further period, not to exceed the Expiration Date. Upon resolution of the underlying uncertainty or expiry of the final stated period, affected Contracts will be resolved under the applicable settlement provisions of this Contract or will settle to Void if the Exchange determines that this will reduce the possibility of

manipulation or disorderly trading on the market. The Exchange will publish notice of any suspension, extension, or resolution on its website, and will record the basis for each contemporaneously. All determinations under this Rule are final.

Contingencies: Before Settlement, the Exchange may, at its sole discretion, initiate the Market Outcome Review Process pursuant to the Rulebook. If an Expiration Value cannot be determined on the Expiration Date, the Exchange has the right to determine payouts pursuant to the Rulebook or settle the Contract to Void.

FAIR VALUE SETTLEMENT RULE

Fair Value Settlement Rule: Where a Contract settles to Void, or where any other provision of this Contract provides for settlement at fair value, the Exchange will resolve all affected Contracts pursuant to this Rule.

(a) Reference Time. The "Reference Time" is the earliest of: (i) the suspension, interruption, or termination of <game>; (ii) any halt of trading in the Contract imposed by the Exchange in connection with the circumstance giving rise to settlement under this Rule; and (iii) the first public report of that circumstance. Where the Exchange reasonably determines that the circumstance was reflected in trading in the Contract before the earliest of these times, the Exchange may set an earlier Reference Time. Where the precise time of any event described in this paragraph cannot reasonably be determined, the Exchange may rely on an approximate time.

(b) Calculation Window. The "Calculation Window" is the 30-minute period ending at the Reference Time or, where the Contract has been listed for trading for less than 30 minutes as of the Reference Time, the period from listing to the Reference Time.

(c) Fair Value Price. The "Fair Value Price" is the time-weighted average, over the Calculation Window, of a composite price for the outcome referenced by the Contract, calculated from: (i) prices for the same outcome published by independent, widely disseminated commercial markets, converted to implied prices by removing the embedded margin from each source pursuant to a consistent, documented normalization methodology; and (ii) the midpoint of the best bid and best offer for the Contract on the Exchange. The composite will reflect no fewer than two independent sources under clause (i) where available, combined with the Exchange's own market data pursuant to a weighting methodology established by the Exchange and applied consistently across Contracts. The Fair Value Price will not be less than $0.00 or greater than the Settlement Value, and will be rounded to the nearest Minimum Tick, with a value falling exactly between two ticks rounded to the tick closer to the composite price at the Reference Time.

(d) Data Integrity. In determining the Fair Value Price, the Exchange may exclude from the composite (i) any Transaction or quotation on the Exchange that the Exchange reasonably determines resulted from anomalous, erroneous, non-bona-fide, or manipulative activity; (ii) any interval during which the market in the Contract on the Exchange was one-sided, or during which

the width of the bid-offer spread or the displayed size rendered quotations unreliable; and (iii) any external source whose published prices are stale, materially divergent from the other sources without apparent basis, suspended, or otherwise unreliable during the Calculation Window.

(e) Fallbacks. If one component of the composite is unavailable or unreliable during the Calculation Window, the Fair Value Price will be determined from the remaining component or components. If neither sufficient external source prices nor sufficient reliable two-sided activity on the Exchange is available during the Calculation Window, the Exchange will apply the following, in order, using the first source that yields a reliable Fair Value Price: (i) the most recent period of no less than 30 minutes within the 24 hours preceding the Reference Time in which the composite can be reliably calculated; (ii) contemporaneous prices of related Contracts listed on the Exchange that reference <game>; and (iii) if no reliable Fair Value Price can be determined from the foregoing, the affected Contracts will be resolved without a Fair Value Price, and Members will receive the return of funds that are at risk in the market.

(f) Settlement. Where a price is determined, each affected Contract will settle with the Member holding the YES side receiving the Fair Value Price per Contract and the Member holding the NO side receiving the Settlement Value minus the Fair Value Price per Contract, in lieu of any other payout under this Contract.

(g) Determination, Notice, and Finality. The Exchange will determine the Fair Value Price no later than the day after the Expiration Date, unless the Market Outcome Review Process has been initiated, in which case the timeline of that process governs. The Exchange will publish the Fair Value Price and a summary of the basis for its determination on its website, and will maintain a contemporaneous record of the data considered, any exclusions or fallbacks applied, and the resulting calculation. Any determination made by the Exchange under this Rule is final.

For illustration purposes:

- in the event **<game>** is suspended after kick-off before the point differential over the applicable **<time period>** can be unequivocally determined, and **<game>** is never completed, the Expiration Value cannot be determined and the Contract settles to Void. Where independent commercial markets published prices for the YES side implying $0.78 and $0.82 after removal of embedded margin, and the midpoint of the best bid and best offer on the Exchange averaged $0.80 over the same period, the composite price, calculated from those external prices together with the Exchange's own market data and time-weighted over the Calculation Window, is $0.80, and the Exchange settles the YES side at $0.80 and the NO side at $0.20 per Contract.
- the Exchange may exclude from the composite a burst of Transactions between related accounts on the Exchange that does not reflect genuine market interest, or an external source whose published prices are stale or diverge materially from all other sources during the Calculation Window without apparent basis; in each case the Fair Value Price is calculated from the remaining reliable components. And where <game> is a lightly traded market in which no external source publishes prices and the Exchange's own quotations during the Calculation

Window are too sparse and wide to be reliable, the Exchange looks first to the most recent period within the preceding 24 hours in which the composite can be reliably calculated, then to related Contracts on <game>, and, failing those, resolves the Contract by returning Member funds.

CONTRACT MECHANICS

Minimum Tick: The Minimum Tick size for the Contract shall be $0.001.

Position Accountability Level: The Position Accountability Level for the Contract shall be $50,000 per strike, per Member.

Expiration Time: The Expiration Time of the Contract shall be the time at which the Expiration Value can first be determined pursuant to the applicable rules of this Contract.

Expiration Date: The Expiration Date of the Contract shall be the earlier of (a) the date on which the Expiration Time occurs, or (b) the fifteenth day following the day on which **<game>** is played to completion, or, where **<game>** does not validly Commence under the Scheduling and Postponement Rule, the last day on which it could have validly Commenced (in which case the Expiration Time is 11:59:59 p.m. Eastern Time). The Expiration Date operates as a hard backstop; no settlement or expiration event occurring after the Expiration Date will affect the Contract. If the Expiration Time has not occurred by the date determined under clause (b), the Contract settles on that date pursuant to the applicable rules of this Contract, and no later occurrence of the Expiration Time will affect the Contract.

Last Trading Date: The Last Trading Date of the Contract will be the same as the Expiration Date. The Last Trading Time will be the same as the Expiration Time.

Settlement Date: The Settlement Date shall be no later than the day after the Expiration Time occurs, or, where settlement is determined under the Fair Value Settlement Rule or the Market Outcome Review Process has been initiated, as provided in those provisions. Settlement occurs on the Settlement Date in accordance with the Rulebook.

Settlement Value: The Settlement Value for this Contract is $1.00, unless the Contract settles to Void, in which case the Contract settles pursuant to the Fair Value Settlement Rule.

Expiration Value: The Expiration Value is the value of the Underlying as documented by the Source Agency on the Expiration Date at the Expiration Time. What is included in the Underlying is governed by **<time period>**.

Determination Finality Rule: The determination of the Expiration Value is final, and corrections, protests, scoring changes, rulings, or similar actions taken by the Source Agency with regard to **<game>** made after the Expiration Time will not affect the Expiration Value.

TRADING PROHIBITIONS APPLICABLE TO INSIDERS AND DECISION MAKERS

Trading in this Contract is subject to Rule 5.11 of the Exchange Rulebook, which prohibits trading by:

- Persons possessing material nonpublic information relating to the Underlying.
- Players, coaches, officials, judges, referees, decision makers, or other persons capable of influencing the Underlying.
- Employees or affiliates of the applicable Source Agency.
- Any other persons prohibited from trading under Rule 5.11.

Additional restrictions applicable to Exchange personnel and Affiliates are contained in Rules 2.12 and 2.13 of the Exchange Rulebook.
